KENNEY NOW THE ONLY SENATOR

Three Democrats Arouse Indignation by Voting For Addicks, and Are Roundly Hissed-The Next Legisla-

ture Will Elect Two Senators. Dover, Del., March 14 .- After one of the most exciting scenes that has ever been witnessed in the general assembly of the state, the session of 1809 ended at 3.06 o'clock yesterday afternoon with-out electing a United States senator to succeed Hon. George Gray. It is the cancy, and owing to the established pre-cedent of the upper house of congress in refusing to sent gubernational ap-pointees after the legislature of a state has had an opportunity to elect, the seat of Mr. Gray will remain vacant until the general assembly of 1901 shall choose his successor. At the same time the term of Richard R. Kenney will also expire, and it will therefore devolve upon

the next legislature to elect two senators The final ballot, the 14th of the day, and the 113th during the session, wa and the 11sth during the session, was as follows: John Edward Addicks (Union Republican), 21; Colonel Henry A. Dupont (Republican), 9; John Biggs (Democrat), 6; ex-Congressman L. Irving Handy (Democrat), 5; ex-Senator George Gray (Democrat), 4; Willard Saulsbury (Democrat), 3; ex-Senator Anthony Higgins (Republican), 2.

Anthony Higgins (Republican), 2.

The time decided upon for adjournment sine die was 3 p. m., and when the 14th ballot was completed it lacked 18 minutes of that hour by the house clock, which was six minutes slow. The Democrats then adpoted filibustering tactics in earnest, although they prolonged the badoting during the afternoon should persist in keeping the field. by moving, after each ballot, that the houses separate, and upon which mo-tions age and may votes were always necessary. A Grand old Lady Gives Her Experience.

Mrs. Thankful Orilla Hurd lives in the beautiful village of Brighton,
Livingston Co., Mich. This venerable and highly respected lady was born in
the year 1812, the year of the great war, in Hebron, Washington Co., New
York. She came to Michigan in 1840, the year of "Tippecanoe and Tyler
too." All her faculties are excellently preserved, and possessing a very retentive memory, her mind is full of interesting reminiscences of her early
life, of the early days of the State of Michigan and the interesting and remarkable people she has met, and the stirring events of which she was a witness. But nothing in her varied and manifold recollections are more mar-A Grand Old Lady Gives Her Experience. markable people she has met, and the stirring events of which she was a witness. But nothing in her varied and manifold recollections are more marvelous and worthy of attention than are her experiences in the use of JOHNSTON'S SARSAPARILLA. Mrs. Hurd inherited a tendency and predisposition to scrofula, that terribly destructive blood taint which has cursed and is cursing the lives of thousands and marking thousands more as victims of the death angel. Transmitted from generation to generation, it is found in neary every family in one form or another. It may make its appearance in dreadful running sores, in unsightly swellings in the neck or goitre, or in eruptions of varied forms. Attacking the mucous membrane, it may be known as catarrh in the head, or developing in the lungs it may be, and often is, the prime cause of consumption.

and often is, the prime cause of consumption.

Speaking of her case, Mrs. Hurd says: "I was troubled for many years with a bad skin disease. My arms and limbs would break out in a mass of with a bad skin disease. My arms and limbs would break out in a mass of sores, discharging yellow matter. My neck began to swell and became very unsightly in appearance. My body was covered with scrotilous cruptions. My eyes were also greatly inflamed and weakened, and they pained me very much. My blood was in a very bad condition and my head ached severely at frequent intervals, and I had no appetite. I had sores also in my ears. I was in a miserable condition, I had tried every remedy that had been recommended, and doctor after doctor had failed. One of the best physicians in the state told me I must die of scrofulous consumption, as internal abcesses were beginning to form. I at length was told of Dr. Johnston, of Detroit, and his famous Sarsaparilla. I tried a bottle, more as an experiment than anything else, as I had no faith in it, and greatly to my agreeable surprise, I thing else, as I had no faith in it, and greatly to my agreeable surprise, I began to grow better. You can be sure I kept on taking it. I took a great many bottles. But I steadily improved until I became entirely well. All the sores healed up, all the bad synaptoms disappeared. I gained perfect health, and I have never been troubled with scrofula since. Of course an old lady of 83 years is not a young woman, but I have had remarkably good health since then, and I firmly believe that JOHNSTON'S SARSAPARILLA is the greatest blood purifier and the best medicine in the wide world, both for scrofula and as a spring medicine." This remarkably interesting old lady did not lok to be more than sixty, and she repeated several times, "I believe my, life was saved by JOHNSTON'S SARSAPARILLA."
